### **Caps and Basis of Determination**

#### ***(i) Credit Services***

The Daily Credit Cap of the Group with Shougang Finance Company is RMB550,000,000 during the Term. The above proposed Daily Credit Cap is determined after taking into account the following:

1. the Group's current business needs, business development and funding requirements. The Group will continue to expand into new businesses in the field of asset operation and increase investments in the Beijing-Tianjin-Hebei region, the East China region, the Chengdu-Chongqing region and the Greater Bay Area, where the Group has established a strong presence. Investments will focus on parking and traveling, industrial parks, rental housing, consumer infrastructure, and mergers and acquisitions. In the future, the Group will collaborate with Shougang Finance Company in areas such as project construction (fixed asset loans) and mergers and acquisitions (mergers and acquisitions loans);
2. the current scale of assets, business and revenue of the Group; and

3. the need to continue to broaden financing channels and enhance the flexibility of funding sources.

(ii) *Deposit Services*

The Daily Deposit Cap to be placed by the Group with Shougang Finance Company is RMB550,000,000 during the Term. The above proposed Daily Deposit Cap is determined after taking into account the following:

1. the maximum daily deposit balance of the Group with Shougang Finance Company during the period from 1 January 2025 to 30 September 2025 (both days inclusive);
2. the existing level of cash and cash equivalents and time deposits at banks held by the Group (“**Cash Level**”). As at 30 September 2025, Cash Level amounted to approximately HK\$8.3 billion. Daily Deposit Cap represented approximately 7.2% of Cash Level as at 30 September 2025. The maximum daily deposit balance represents only the maximum amount the Group can deposit with Shougang Finance Company each day, and the Group has no obligation to deposit such amount with Shougang Finance Company. Setting a maximum daily deposit balance will give the Group greater flexibility in selecting deposit service providers and allocating funds;
3. the deposit interest rate provided by Shougang Finance Company to the Group is not lower than the deposit interest rate of the same type of deposits in major domestic commercial banks during the same period, and it also has additional advantages such as flexibility, convenience and timeliness in fund reallocation. Raising the deposit cap under the New Financial Services Framework Agreement will allow the Group to fully benefit from the advantageous deposit services offered by Shougang Finance Company, thereby creating maximum value for shareholders;
4. the expected deposit balances at the end of each month of the Group. Based on the Company’s consolidated management accounts, the average Cash Level for each of the three years ended 31 December 2024 and the nine months ended 30 September 2025 were approximately HK\$4 billion, HK\$4 billion, HK\$4.1 billion and HK\$6.3 billion. Daily Deposit Cap represented approximately 15%, 15%, 15% and 9% of each of the above average Cash Level respectively;
5. the cash position of the Group and the expected growth of the business operation of the Group;
6. the financial needs of the Group during the Term of the New Financial Services Framework Agreement; and
7. the basis of determining the deposit interest rate as disclosed above in this announcement.

(iii) *Other Financial Services*

During the Term, the cap for the cumulative aggregate amount of service fees charged by Shougang Finance Company for the provision of Other Financial Services to the Group is RMB10,000,000. The above proposed Service Fee Cap is determined after taking into account the following:

1. during the period from 1 January 2025 to 30 September 2025 (both days inclusive), Shougang Finance Company mainly provided remittance services to the Group and such

services were exempted from service fees, therefore the historical cumulative transaction amount of Other Financial Services was RMB0. At the same time, the Group expects to have business demand for fee-based Other Financial Services provided by Shougang Finance Company, such as bonds issuance, mergers & acquisitions loans, cross-border business and settlement in the year of 2026;

2. the pricing basis of service fees as disclosed above in this announcement;
3. the expected scope and service specifications of Other Financial Services; and
4. the Group's existing scale of operations and anticipated growth.

The Directors (including the independent non-executive Directors but excluding the Directors who have abstained from voting on the relevant Board resolutions) consider that the above proposed caps are fair and reasonable and in the interests of the Company and its Shareholders as a whole.
